

Soutron Global Discovery

Combine your entire collection of information resources into a single search box and enable users to find the right content, fast.

Soutron Global's Discovery

A simple to use interface that enables users to search and find resources effortlessly.

Accessibility

- Benefit from easy online access to all of your resources with a single log-in.
- No restrictions on the type of content, its volume or whereabouts when using Discovery.
- Mobile-friendly, it gives users the flexibility to access resources on-the-go, at the office, even at home.

Capability

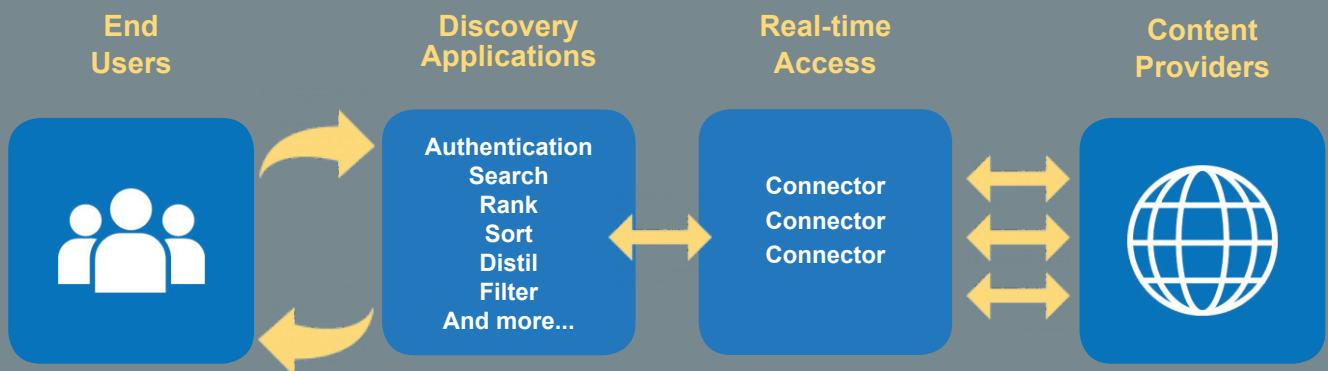

- Powerful ability to deliver current research and content in one single place.
- Search technology with built-in automatic updates providing up-to-date dynamic discovery tools.
- Regular updates ensure your collection is always current and relevant.

Flexibility

- Give your users the flexibility to find and use content regardless of origination.
- Constantly enhance search results to ensure your users always have access to the latest research and information, automatically.
- Discovery provides the agility that modern users demand and need.

Simplicity

- Soutron Global is committed to providing clients with the most flexible and powerful information management systems via intuitive user interfaces.
- No overly complex processes means you get ease of access with information and content readily available at your fingertips.

Work with any number of resources and content collections - with no limits to the number, type or location of your resources, you can work freely.
